## RIEDON™ RESISTORS BY BOURNS

### Riedon™ PF2270 Series Power Thick Film Resistors by Bourns

#### *Manufacturing Site Relocation*

*Riverside, California* – May 19, 2025 - To streamline its manufacturing processes, effective immediately, Bourns will relocate the production of the PF2270 Series Power Thick Film Resistors from the United States to its higher production capacity Costa Rica facility. A list of affected part numbers is provided below.

Affected Part Numbers				
PF2272-0R1J1	PF2272-100RF1	PF2272-1RJ1	PF2272-500RJ1	PF2274-10RF1
PF2272-0R2J1	PF2272-100RJ1	PF2272-200RJ1	PF2272-50RF1	PF2274-18RF1
PF2272-0R5J1	PF2272-10RJ1	PF2272-20RJ1	PF2272-50RJ1	PF2274-22RF1
PF2272-100KJ1	PF2272-1KJ1	PF2272-2RJ1	PF2272-5RJ1	PF2274-50RF1

As part of this transition, the packaging label will be updated to the Bourns standard label format, and the part marking will change to reflect the manufacturer name as Bourns instead of Riedon™. (Riedon's assets were acquired by Bourns through its affiliate, BE Services Company, Inc., in April 2023).

There will be no product design, manufacturing process or material changes as a result of the manufacturing site relocation. The affected parts at the relocated manufacturing site will meet the same data sheet specifications as the parts from the existing site. The country of origin will change from the United States to Costa Rica.

The fit, function, quality, and reliability of the affected part numbers will remain the same. The form will slightly change due to the change of manufacturer name on the part. The production lead time of these resistors will remain the same. Traceability will be maintained through lot code and date code (2514). All relocated products will be qualified against Bourns' internal requirements per applicable specifications.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

*If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).*

*Users should verify that the described changes will not impact the performance of the product in their specific applications.*
